### ABOUT ME

I am 29 years old teacher from Czech Republic.

To be completely honest I do not have any experience working in any accountant or corporate position. However I am interested in finance, so I constantly educate myself. I have my own portfolio, do my own taxes and generally try to improve my knowledge in this field. Also I consider myself as very hardworking person and quick learner.

I worked as a marketing manager in floorball club, where I was dealing with financial planning and budgets. Also I founded there a new e-shop, that I also managed for some time. That involved working with invoices and dealing with taxes.

When I was younger, I also went through many trainings in Partners (company of financial advisors). In the end I did not work there, but it was very helpful for my financial literacy.
